# From the Principal's Desk

**Dear Students / Parents,**

You all must be aware of the fact that only few things happen by chance. To succeed in any field you require meticulous planning, dedication & hard work.

When a man builds a house, he does not make it up just by desire or by chance. For that he follows a blue print of a plan and then construction goes on step by step.

Every body has inherent budding desire to excel in the field of their interest but only few are able to achieve the goal. The failure is not just due to lack of ambition or effort or dedication but lack of inarticulate planning and lack of knowledge.

With the increasing competition, it has now become obligatory to enroll your name only in the best college of the city. It is here that we have realized, how much the students bank on their professors to help them at this significant turning point in their life.

It is a well known fact that students aspiring for Medicine, Engineering or any other professional courses have to face a competitive world today. So it is necessary to enhance the potential possessed by him / her to create their own identity and excel in their academic performance.

H.S.C. is a crucial and turning point in your life and career. At this juncture, we are putting before you certain facts and guidelines to ensure that you take correct step forward for a promising and bright career. First step in this direction is to make the basic concepts clear in Std. XI so that it will facilitate greater understanding of the subjects during Std. XII & NEET / JEE mains. The next step is to get very good score in NEET / JEE mains examinations to secure admission for Medicine or Engineering.

The preparation, the practice, the planning, the punctuality and psychological confidence boosting are the prerequisites that lead to success!

With the above in view, one particular subject will be taught by two/three professors only. This will provide the teachers with enhanced productivity and interaction with the students. This also helps the teacher to discuss and point out the mistakes committed by each student and make them perfect in all respects to achieve the goal of high percentage.

with regards,  
**Bhavesh Nagda**  
Principal

# Expertise

- Faculty:** VB's faculty is a team of stalwarts in their respective subject and highly committed to the cause of students' welfare.
- Courseware:** Our study material is authentic, lucid and to the point. Elaborative and easy notes unmatched in quality.
- Tests:** The frequency, difficulty level and syllabus of tests increases gradually and student goes on excelling in systematic manner (without any burden).
- IC Batch:** From the Top Rankers, we select students (90 % above in our tests) from our batches. Special training is imparted to these selected students with emphasis on skill and perfection for attempting the Board Exams and Entrances like NEET & JEE (mains).
- Parents' Meeting & Counselling:** We analyze the performance of individual student and update the same to the parents in Parents' meeting **every month**.

## PHYSICS PERCENTILE

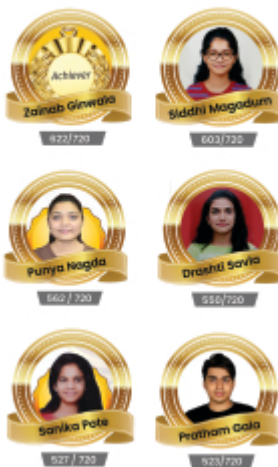

## CHEMISTRY PERCENTILE

## MATHS PERCENTILE

## NEET - RESULT

## PERFECT SCORE BIOLOGY

*An institute that  
links success*

## PHARMACY PCB OVERALL PERCENTILE

## PHARMACY BIOLOGY PERCENTILE

## A word of thanks

**Nitish Yadav** - M.B.B.S. – **Grant Medical College** - (J.J. Hospital)

Professors of VB's develop special bonding with their students which gives them edge over the others. They are well experienced in teaching and see that each and every doubt of the students is cleared.

If a child has problem in grasping the concept, then professors settle down on it explaining it in easier way. Teachers are always ready to solve any doubt at any time. They also give equal importance to every child's problem. This attitude of professors towards me and others helped me to raise my performance and come out with flying colours in the Entrance examination.

**Saurav Jagdale** - Computer Engg. - **V.J.T.I.**

Printed notes provided by the classes were in very simple languages which helped me to understand the concepts very fast and score good marks in the exam. Numerical problems of all types are covered in the class and large number of practice problems gave me good hold on subject matter. Also, previous years board questions at the end of each chapter added to the quality of my score in final exams.

**Mangesh Hase** - Chem. Engg. - **I. C. T.**

Examinations of VB's played an invisible role in my success. The best feature of VB's is their systematic and well-planned test schedule, various short and long tests are taken in the whole academic year on each and every topic of the subject. For XII preparation, 3 prelims were taken. After the board examination again chapterwise Entrance based short tests, followed by 20 full-length tests were taken. Model answers were given for all examinations. Based on the marks, progress reports were given and parents meeting were arranged time to time for the discussion, which helped me to correct my mistakes.

I give credit of my success in Entrance exam to entire team of VB's under able leadership of our beloved Prof. Bhavesh Sir.

**Vikrant Lawande** - M.B.B.S., **R.G.M.C.** - (Rajiv Gandhi Hospital)

If you want to score good marks, then VB's is the right choice. I was so lucky to be at this esteemed institute. Study of Entrance is altogether different from XII studies and requires good hold of theoretical knowledge and its application has to be done systematically.

Here in VB's, my concepts were made crystal clear, shortcuts and time management skills were also developed. In VB's, they took 20 full fledged prelims of less time duration, boosting our confidence and ensured that I finish my paper in time and that gave me added advantage of finishing my Entrance paper before 10 min. Thus, the efforts taken by my professors helped to top my class and college both in HSC and Entrance exams.

# INSTRUCTIONS

- ▶ Commensurate with our sincere efforts to provide the best guidance, we expect you too to be equally responsive by working hard throughout the course period. Therefore, this institute is not for those who wish to just get enrolled and wait for the miracle to happen.
- ▶ The selection of batch once made cannot be altered. The students are advised not to approach the management for any alternation of batch. However, under certain circumstances, change of batch may be permitted for which you will have to apply to the management and an additional fee of Rs. 4,000/- will be charged.
- ▶ The date, timings and duration given in the prospectus are tentative. We reserve the right to alter these with convincing explanation.
- ▶ At the time of admission, student should fill up the admission form neatly and submit the same to our staff along with :
  1. Xerox Copy of Std. X Board Examination Marksheet.
  2. Three recent stamp size colour photograph ( with your name written on reserve side.)
  3. Fees in the form of current dated cheque of 1st installment & post-dated cheques of further installments.
  4. Cheque should be drawn in favour of "VB's Private Tutions"
